What's New This Week...

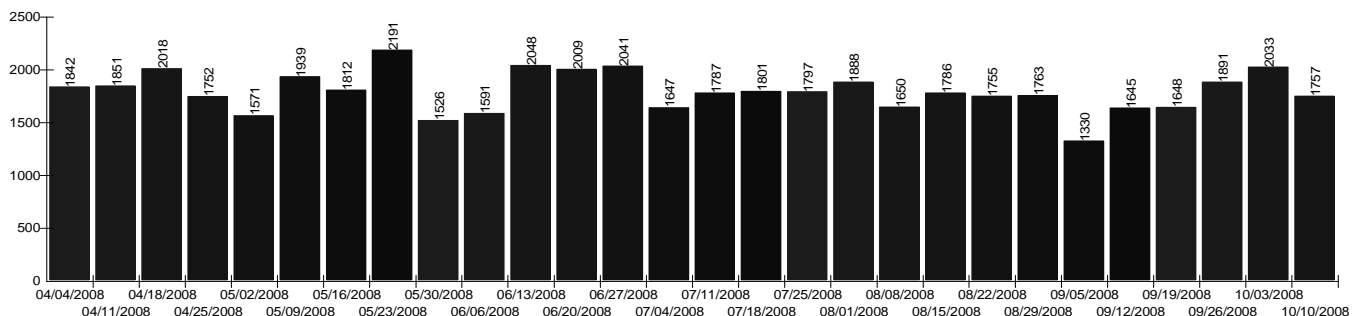

Optimize Sales Calls with a Location-Based Product...

On 09/19/08, there were 31 rigs within a 10 mile radius of Joshua, Texas. There were 50 rigs within 25 miles of Ashland, Oklahoma and 28 rigs within 25 miles of Stanley, North Dakota. When visiting rigs, it's good to plan ahead and get to as many as you can in one area.

Digital Rig Locator (DRL) from RigData gives you a map-based overview of your region. It's available in an easy-to-open spreadsheet format that can be imported into third-party mapping software such as Microsoft Streets & Trips and some GPS units using latitude and longitude (plus other important data).

Get DRL packaged with a standard Locations & Operators PDF today by contacting us at customerservice@rigdata.com or (800) 627-9785. Learn more about DRL at www.rigdata.com/DRL.

A Rig Finding Dataset. Get it. Load it. Map it!

When you get DRL you get:

- Time and gas savings
- Ability to see rig locations on a map
- Find rigs more easily
- Plan better routes and reduce mileage
- And more...

1-2-3 Ways to Try DRL:

1. Email sales@rigdata.com or customerservice@rigdata.com and we'll send you a sample.

2. Go to www.rigdata.com/DRL to download a sample and check out some helpful ways to map and use the data.

Please mention DRL08 when ordering or requesting a sample.
