## ARK - LA - TEX

### What's New This Week...

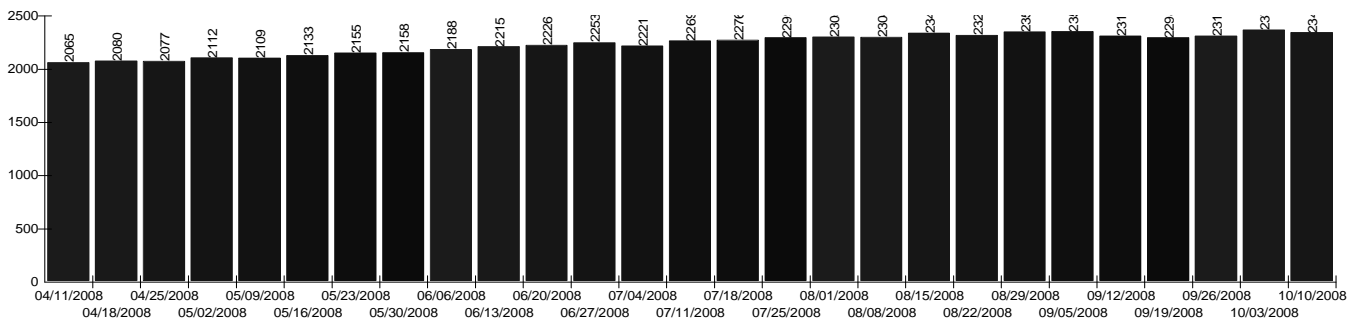

Optimize Sales Calls with a Location-Based Product...

On 09/19/08, there were 31 rigs within a 10 mile radius of Joshua, Texas. There were 50 rigs within 25 miles of Ashland, Oklahoma and 28 rigs within 25 miles of Stanley, North Dakota. When visiting rigs, it's good to plan ahead and get to as many as you can in one area.

Digital Rig Locator (DRL) from RigData gives you a map-based overview of your region. It's available in an easy-to-open spreadsheet format that can be imported into third-party mapping software such as Microsoft Streets & Trips and some GPS units using latitude and longitude (plus other important data).

Get DRL packaged with a standard Locations & Operators PDF today by contacting us at customerservice@rigdata.com or (800) 627-9785. Learn more about DRL at [www.rigdata.com/DRL](http://www.rigdata.com/DRL).
