EAST TEXAS

What's New This Week...

Finding Rigs Made Easy

Digital Rig Locator (DRL) is a new data service from RigData designed to be used on your laptop with mapping software or GPS. All working rigs in your area are clearly plotted and identified with data points you select.

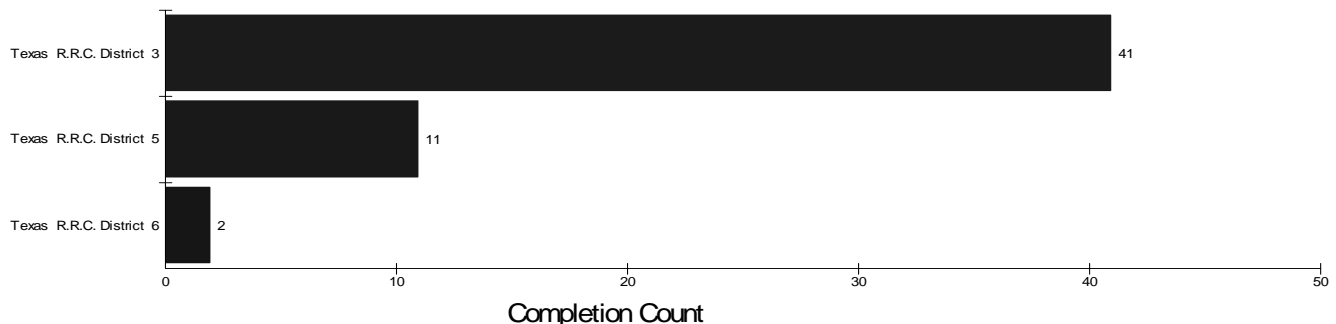

Our DRL data can be used for routing and allows you to view your territory in its entirety. The data is cross-referenced to our Locations & Operators report so you can use both in tandem.

1-2-3 Ways to Try DRL:

1. Email customerservice@rigdata.com or sales@rigdata.com, and we'll send you a sample.
2. Go to www.rigdata.net/DRL to download a sample and check out some helpful ways to map and use the data.
3. Buy DRL. Call (800) 627-9785 to inquire about monthly rates and to order today!

Special Offer: Order DRL for one month and receive a \$50 gift card to Best Buy for a software or hardware purchase.

Well Completions for the Week
